26 January 2012

Dear Parents

Following the recent power cut, Western Power will be carrying out repair work to the electricity sub-station adjacent to School House. This will take place between 8:00 am-4:00 pm on Sunday 29 January 2012 and will take approximately six hours. The electricity supply will be shut-down during this time.

Consequently, much of the School will be without power and our IT facilities will be affected, meaning that you will not be able to access the Parent Portal and pupils will not be able to access their user areas remotely.

Please accept my apologies for any inconvenience caused by the work, but we are in the hands of Western Power and this work is a priority. It is our expectation that school will function as normal on Monday 30 January and that the remedial work to the sub-station will avoid similar problems in the future.

Yours sincerely
