

06 May 2010

Dear Parents

As a part of the Thirds' (Year 7) Science Curriculum, we shall shortly be covering Human Growth, Development and Reproduction.

In particular, we shall be considering changes that occur both physically and emotionally during puberty and adolescence. The teaching will be supplemented by a talk and question time (run by a specialist nurse) concentrating on the emotional and practical problems associated with this time of life. The aim is to ensure that children are prepared for these changes, and accept them as a normal and natural part of growing up.

We wanted to let you know in advance that this topic is being covered, as you may well be asked some relevant questions! If you would like to ask us any questions about what we are doing, or if you have any concerns about your child being taught this subject, please do not hesitate to contact me.

Yours sincerely

A handwritten signature in black ink that reads "B. Wormald." with a horizontal flourish underneath.

Mr B Wormald  
Third Form Science Co-ordinator
