SAMPLE PAPER

Reading Assessment

The reading assessment will last approximately 10 minutes and it will be done on a one-to-one basis with each child. The children will be asked to read the text and answer questions orally about the text as they progress.

Whilst your child reads, teachers will assess the accuracy and fluency of their reading. They will also assess your child's understanding of the text, including their ability to infer what the text might suggest.

Writing assessment

This will be teacher led and will take approximately 20 minutes to complete. The following task is a sample of the type of questions your child could be asked about a picture stimulus or oral introduction.

Write about a party that you have been to.

- Who was there?
- What did you enjoy doing?
- What treats did you have to eat? Which one was your favourite and why?
- What was the best thing about the party? Why?
