

SOLIHULL

Assisted Places

AMBITION - OPPORTUNITY - COMMUNITY

Assisted Places

For over 450 years, Solihull School has built a reputation for outstanding education. Starting life as the Free Grammar School in 1560, Solihull is now one of the most prestigious schools in the Midlands - rich in tradition, but dedicated to moving forward, nurturing **ambition** and embracing **opportunity**.

We take pride in the talent and diversity of our pupils' backgrounds, and we are determined to maintain the important connection between the School and the wider **community** by offering boys and girls from across the Midlands access to Solihull and the outstanding education it offers. We are able to offer generous financial support to families from across the region and over 20% of all our pupils are in receipt of some financial assistance. Many pupils have attended the School on fully funded places.

At Solihull, the majority of activities are included in the annual school fee, but in the event of extras such as school uniform, additional funding is available. It is also possible to combine an Assisted Place with a Scholarship, making a fantastic education within reach. Households in receipt of income up to £75,000 may be eligible.

An Assisted Place could offer your son or daughter many happy years through a first class education and a wealth of co-curricular opportunities. Once they join us, boys and girls remain a part of the school community forever and all leavers become automatic members of our active international alumni network, enjoying the many benefits this brings.

Assisted Places are means tested and applicants are invited and encouraged to apply. Further details are available from the Bursary and Admissions Office and all dates relating to Assisted Places are on the School website www.solsch.org.uk, or telephone **0121 705 0958**.

Past recipients of the Assisted Place Scheme:

Mary Montgomery

O.S. 2013 St. Hilda's Oxford

'Coming to Solihull allowed me to discover the subject I now study at Oxford. I am hugely grateful that the scheme topped up my scholarship and opened up such a fantastic opportunity.'

Daniel Beck

O.S. 2013 Cardiff

'The School, and the Assisted Place Scheme in particular, gave me an opportunity to reach a level of academic achievement that was perhaps not expected of me in primary school. The facilities made available to me, from sports to music, far outstripped anything I was used to at the time.'
